

[12:22 PM] Filip Šostarec: are you still interested in working with me on spring project?

[12:24 PM] Gehad Hamdy: yes, i'm reviewing OOP of java and basics of java ee like servlets and jsps and then begin in Spring

[12:24 PM] Gehad Hamdy: we'll work in laravel and spring ?

[12:25 PM] Filip Šostarec: I mean laravel is main project

[12:25 PM] Filip Šostarec: I will do spring on my own just to see how it goes

[12:25 PM] Filip Šostarec: you can join if you want

[12:26 PM] Filip Šostarec: <https://spring.io/guides/tutorials/bookmarks/>

[12:26 PM] Filip Šostarec: check this tutorial to get little bit into spring

[12:26 PM] Filip Šostarec: then this project

[12:26 PM] Filip Šostarec: <http://projects.spring.io/spring-data-rest/>

[12:27 PM] Filip Šostarec: this is the main one we are gonna use

[12:27 PM] Filip Šostarec: <https://projects.spring.io/spring-restdocs/>

[12:27 PM] Filip Šostarec: this one is for generating documentation from tests

[12:28 PM] Gehad Hamdy: ok i want to go through spring and hadeer will work with us

[12:28 PM] Filip Šostarec: and probably this project for background workers and queues

[12:28 PM] Filip Šostarec: <http://projects.spring.io/spring-integration/>

[12:30 PM] Gehad Hamdy: ok

[12:31 PM] Filip Šostarec: but I'm still rethinking should we use microservice architecture and to put report generation as a separate microservice app

[12:31 PM] Filip Šostarec: I'm not sure yet

[12:32 PM] Gehad Hamdy: we will take time to cover all this so when will you start?

[12:32 PM] Filip Šostarec: np

[12:32 PM] Filip Šostarec: I'm thinking about starting this days

[12:33 PM] Filip Šostarec: I will couple of simple crud endpoints

[12:33 PM] Filip Šostarec: like variance value for example

[12:33 PM] Filip Šostarec: just for start

[12:34 PM] Gehad Hamdy: ok, when we ready ,i'll tell you

[12:35 PM] Filip Šostarec: also check spring boot project a little bit

[12:35 PM] Filip Šostarec: cause our project will use that
